## **SURVIVAL-LEVEL ROMANIAN**

The Defense Language Institute Foreign Language Center (DLIFLC) developed this phrase book to provide survival-level language skills to personnel deployed to an area where Romanian is spoken. It contains words and phrases which should be useful during contingency operations. DLIFLC has also produced an audio cassette tape of the book's contents which will assist users with pronunciation of the target language. It should be bundled with this phrase book.

Additionally, DLIFLC packages this book with a quick-reference, two-sided, laminated command and control (C2) card that contains critical words and phrases for contingency operations. It should prove useful in tactical situations where there is not sufficient time to thumb through even a short phrase book.

The Defense Language Institute is committed to providing effective language materials for personnel in need of basic foreign language skills. Please tell us what you think of these language survival materials. Contact the Operations Division at DLIFLC, ATFL-OPP-O, Presidio of Monterey, CA, 93944-5006, DSN 878-5463, Comm (408) 242-5463. If your organization's language requirements exceed the content of this publication, contact DLIFLC at DSN 878-5108, Commercial (408) 242-5108.
